

TRANS-FIL
INDUSTRIAL EQUIPMENT

Your reliable partner
in industrial machinery.

With over 30 years of experience,
we are leaders in innovation for
the metallurgical and
automotive industries.

Offering solutions that drive
the success of our clients.

Providing integral solutions from
planning to commissioning.

TRANS-FIL Solutions

Filtration

Centralized treatment and
filtration systems for coolant fluids.

Washing

Automated lines for parts washing
and drying.

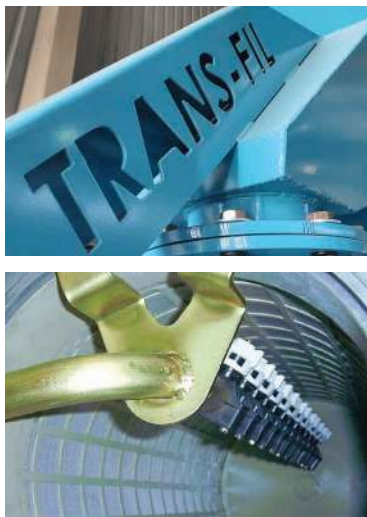

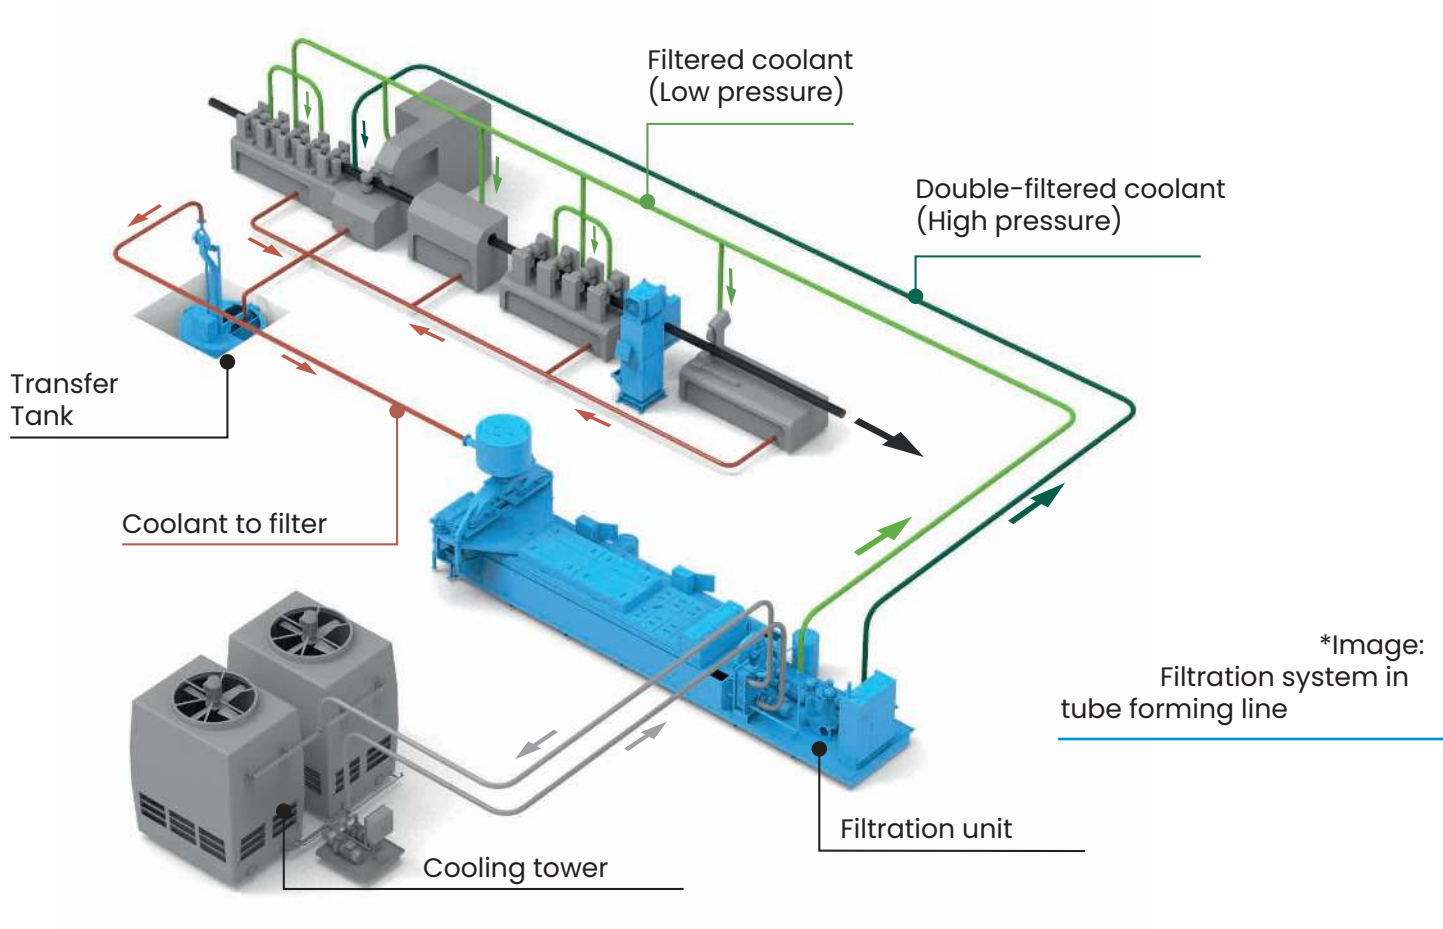

Conveying

High-quality chip conveyors
with minimal maintenance.

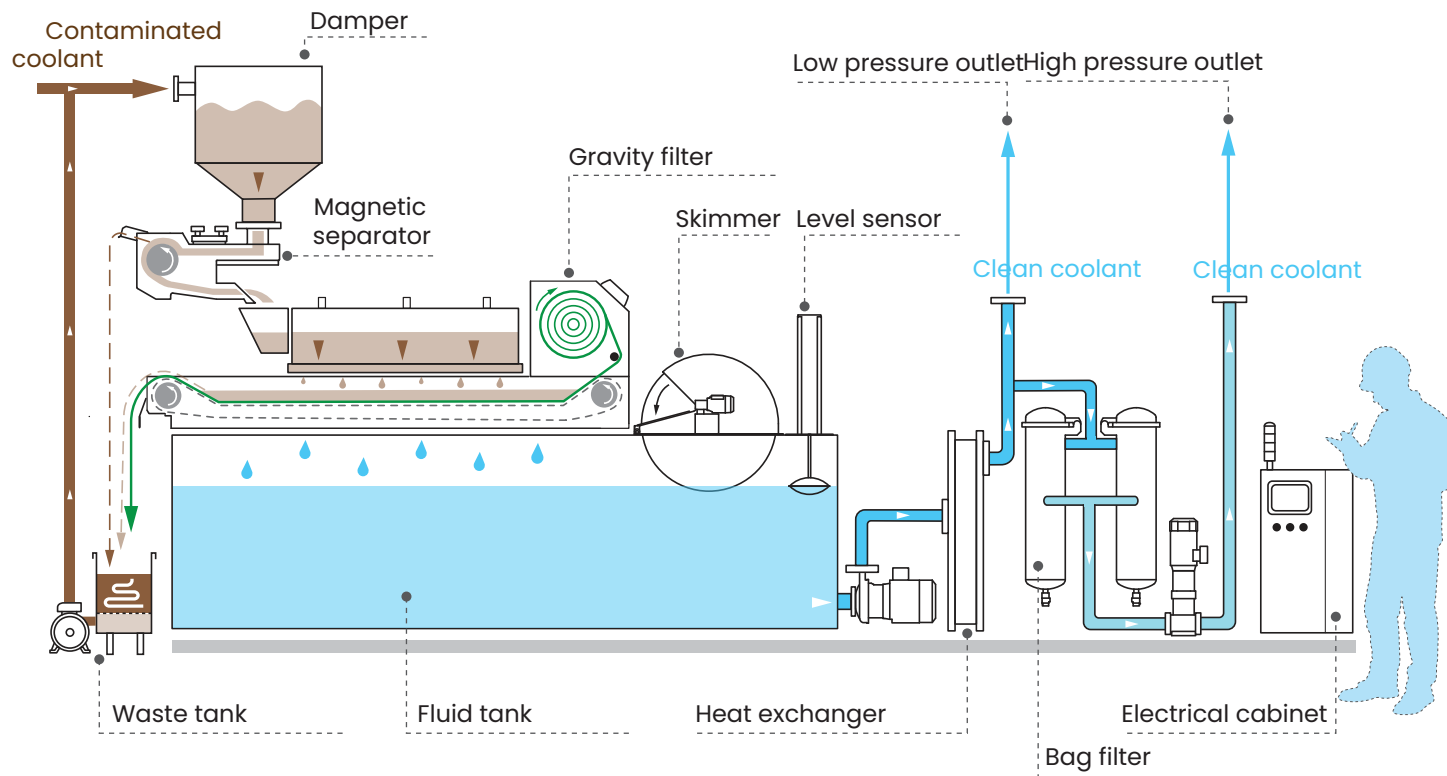

Filtration

Boost your plant's performance and optimize coolant fluid usage with our filtration and fluid treatment equipment.

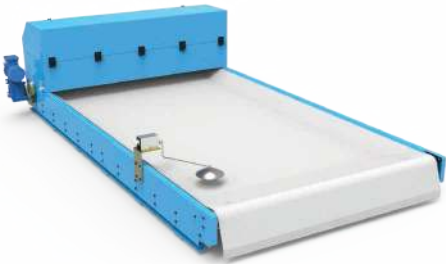

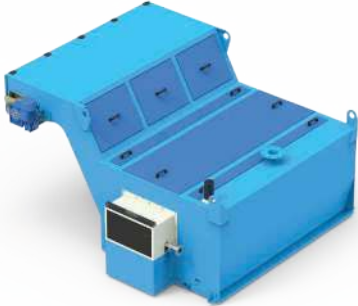

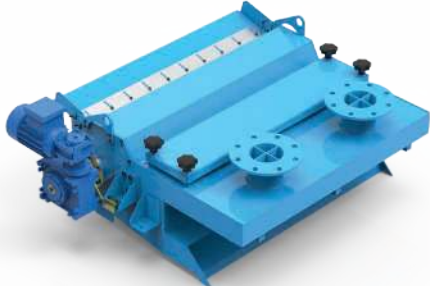

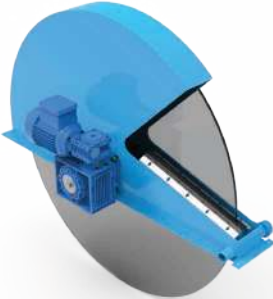

We deliver customized systems, considering key factors such as cost, automation, materials and environmental requirements.

Process Diagram

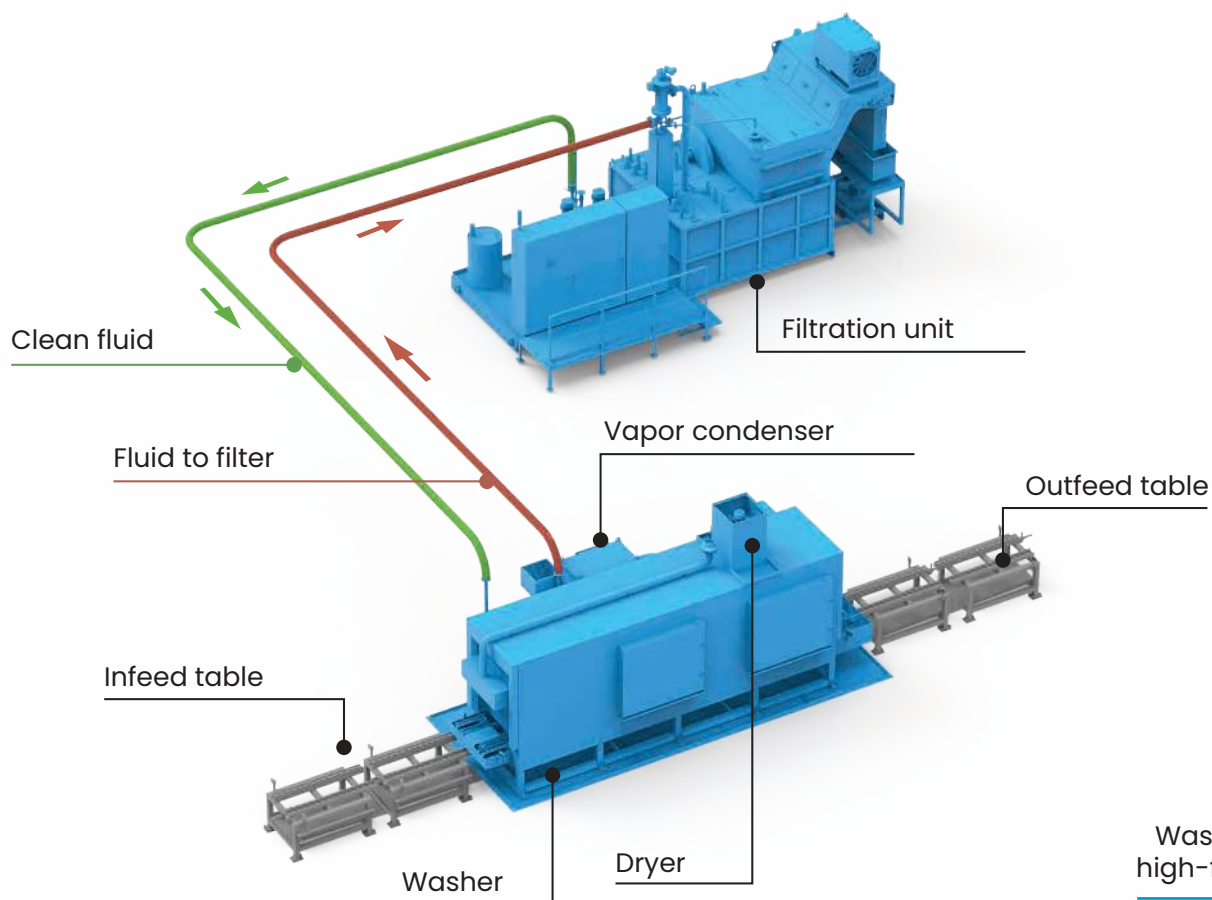

TRANS-FIL Filtration Technologies

AUTOMATIC Fine gravity filter. 	BAG Fine high-pressure filter. 	DRUM High-flow filter. 
MAGNETIC SEPARATOR Magnetic chip extractor. 	OIL SEPARATOR Surface oil extractor. 	TRANSFER TANK Re-pumping fluid tank. 

Washing

Optimize the quality and cycle times of your manufacturing process with washing and drying lines built with cutting-edge technology for optimal results.

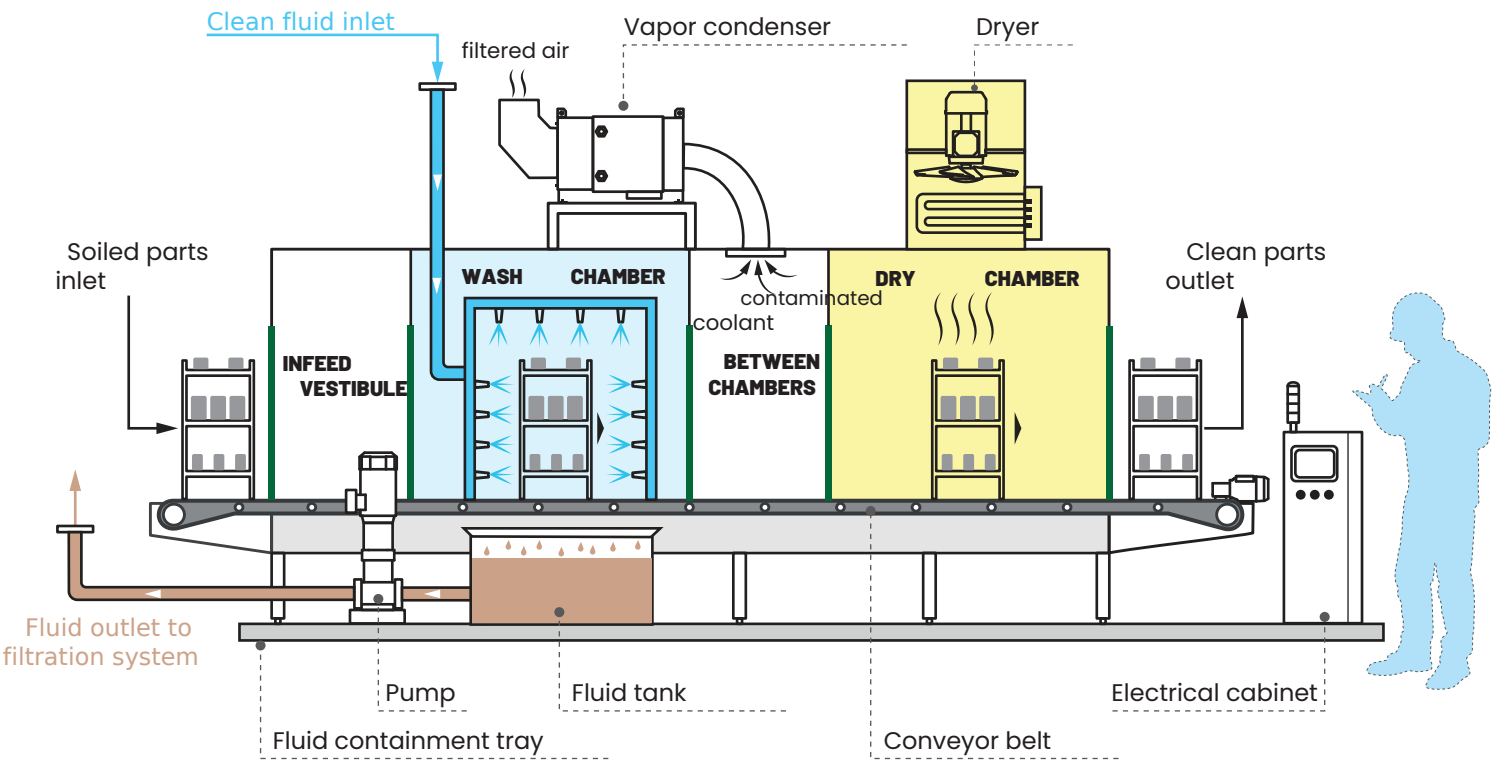

Furthermore, our expertise in conveying and filtration systems allows us to offer integral solutions for your industrial needs.

high-flow filtration unit

Process Diagram

Washer Types

TUNNEL TYPE	CABIN TYPE	TOWER TYPE	SPECIAL
Suitable for a wide range of parts.		Flat parts of revolution.	Specific parts.
E.g.: Gears of all types, pistons, rods, bushings, etc.		E.g.: crowns, gears, etc.	E.g.: camshafts, engine blocks, etc.

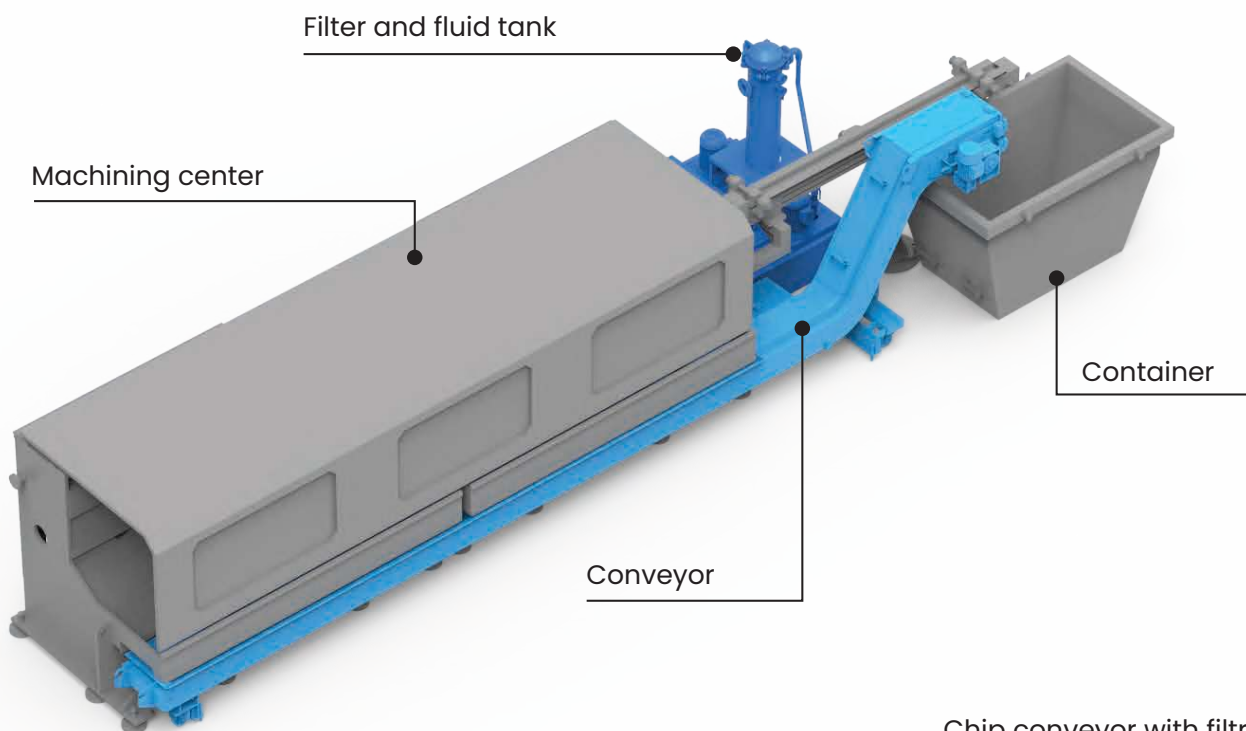

TRANS-FIL Washing Technologies

CONVEYING SYSTEM Automatic parts positioners.	VAPOR CONDENSER Contaminated air extractor & filter.	DRYER Moisture extractor
---	--	--

Conveying

Boost the efficiency and productivity of your industrial plant with premium chip conveyors, engineered for optimal performance with minimal maintenance.

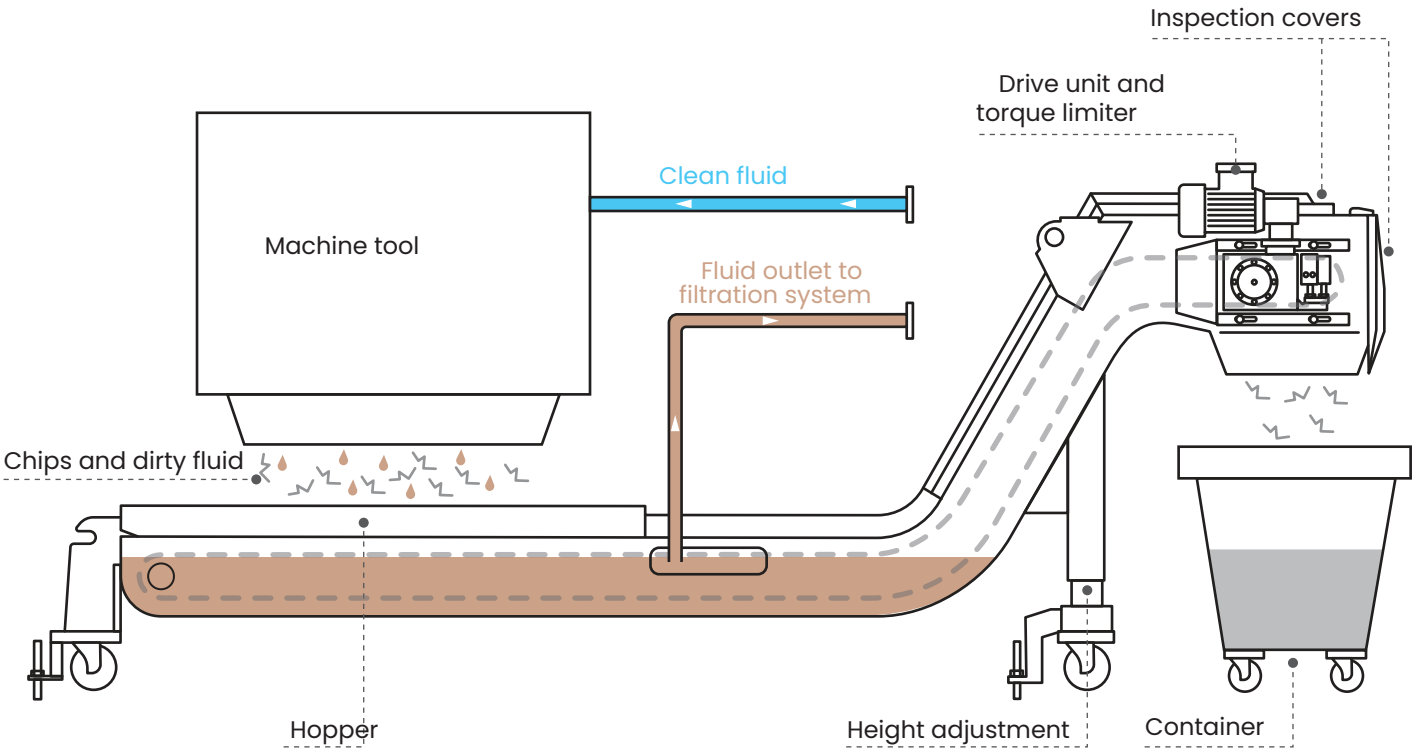

We offer versatile solutions tailored to the specific requirements of any production environment, ensuring efficiency and excellence at every stage.

tank, for machining center.

Process Diagram

TRANS-FIL Conveying Technologies

DRAG TYPE
Efficient with small, heavy chips in large quantities.

The diagram shows a **Drag chain** conveyor with a **Rotation direction** arrow indicating clockwise movement. **Chips** are shown being moved along the chain. Below the diagram is a photograph of the physical **Drag chain** conveyor unit, which is blue and mounted on wheels.

HINGED BELT
Adaptable to various types of chip and scrap.

The diagram shows a **Conveyor chain** (hinged belt) conveyor with a **Rotation direction** arrow indicating clockwise movement. **Chips** are shown being moved along the belt. Below the diagram is a photograph of the physical **Conveyor chain** conveyor unit, which is blue and mounted on wheels.

MAGNETIC
Designed for small magnetic chips.

The diagram shows a **Magnetic belt** conveyor with a **Rotation direction** arrow indicating clockwise movement. **Chips** are shown being moved along the belt. Below the diagram is a photograph of the physical **Magnetic belt** conveyor unit, which is blue and mounted on wheels.

More TRANS-FIL solutions and services

Industrial furnaces

Furnaces for parts drying or surface finishing.

Fixtures / Racks

Systems designed for positioning or transporting parts.

CNC Laser & plasma cutting

Custom design of cutting machines with laser and plasma technology.

Sheet cutting & bending

Sheet metal cutting services with laser and plasma, with bending capacity up to 3 meters length.

Improve your process efficiency with advanced TRANS-FIL technology.
Your reliable partner in industrial machinery.

Custom Design:

Tailored solutions designed to boost the productivity of your industrial process.

Automation:

Simplify operations, reduce manual intervention and improve efficiency.

Exceptional Quality:

We ensure an exceptional finish for your final products with continuous support through commissioning.

At **TRANS-FIL** ,
we sincerely value the relationships we have
built with our clients over the years.
Among the companies that trust us are:
